

INFOTOPIA

Web Site of the Month

<http://hoodamath.com/games/bizwiz.php>

HoodaMath includes dozens of math games, tutorials, worksheets and movies for students.

In the above game, HoodaMath's BizWiz, students choose to operate a music, clothing or pet store. They operate the cash register, hand out the correct change to customers, avoid management gripes, and spot potential thieves.

Students will complete dozens of math problems while playing this game. BizWiz is a fun way to practice addition and subtraction as well as to learn how to count back change to customers!

HoodaMath also links to HoodaWord and HoodaBrain. Let the learning (and the fun) begin!

Welcome Back!

infotopia.info

Attention: Social Studies, History, and Humanities teachers at all grade levels!

Do you need primary source documents for your classes? Would you like your students to hear a famous speech from world history?

Look no further than Infotopia for links to the top primary source materials. Find U.S. History materials in print, listen to famous historical speeches, and search for world history documents as well. This is your link to primary sources!

Free Comic Strip Creator Tools

Would you like to have your students create comic strips for your class? These comics could be historical, for writing practice, for foreign languages or an artistic endeavor. Why not try it out yourself? Here’s a sample one that I made in about 5 minutes. Click on the Infotopia link below to find six free comic strip creator web sites.
