

# INFOTOPIA

## Web Site of the Month

<http://www.edheads.org>

An award-winning website, Edheads.org provides free, educational online games focused on science, math, and critical thinking. Students can choose to replace a knee or hip, design a cell phone or explore the weather or simple machines. There are more than a dozen educational investigations available for students.

Teacher's Guides and links to standards are included.

## Welcome!

Infotopia, Kidtopia, and TeacherTopia were created by and are maintained by Dr. Michael Bell and Carole Bell, a husband and wife team who have been librarians as well as classroom teachers over educational careers spanning more than thirty years each.

Please feel free to comment and/or recommend web sites for inclusion by directing your emails to: [bell@infotopia.info](mailto:bell@infotopia.info)

We look forward to hearing from you!

## OUR WEB SITES

**infotopia.info**

Infotopia.info is a Google alternative custom safe search engine accessing only trusted websites previously selected by librarians, teachers and library and educational consortia. Infotopia is recommended for K-12 students and teachers.

TeacherTopia.info is a safe search engine developed for K-12 teachers that accesses only trusted websites recommended by librarians, teachers and library and educational consortia. TeacherTopia is designed to provide access to resources, lesson plans, primary source documents, student activities and more for all subjects across all grade levels.

Kidtopia.info is a Google custom safe search engine for pre-school and elementary school students and their teachers.
