

Did You Know?

We research the images used on Infotopia and include an information fact box about each of them. Here's one from Cappadocia, Turkey. Just click on the arrow at the top right of the image. For more information, click on the link to a video or website about the topic.

Is Cappadocia on your bucket list?

How Number Lines Can Boost Mathematical Understanding

From Edutopia by Andrea Tamayo

<https://tinyurl.com/crptav4n>

Included in this article for grade K-5, there are "five practical strategies that teachers can use to support students' understanding of math concepts and skills, using the number line." Fractions and decimals are also discussed, which is unusual for a number line activity.

Welcome!

Welcome to the students and teachers from **Lisbon, Portugal** ! We are happy you are using Infotopia.info, VirtualLRC.com, Infotrek.info, Kidtopia.info, and Kidtopiafacts.com for your research needs!

Citing Your Resources is Important!

To be considered an excellent scholar, you must cite where you found your information for your research.

I know you know you can't just go to an AI program and have them write a paper for you.....

Infotopia has links to excellent easy citation creators. You just enter the information and they do all the work for you! There is a plagiarism detector on this resource as well.

Try them out and let us know your favorite.

Travel Tips from Google

<https://tinyurl.com/4ekapj9e>

1. Build a custom trip plan with AI Mode in Search--AI Mode in Search can transform your scattered research into a cohesive travel plan.

2. Save money with hotel price tracking on Search

3. Translate and communicate with confidence.

- Use Google Translate app.
- Translate with your camera --Just point your camera and instantly translate what you see
- No internet? No problem.--Download a language to translate without an internet connection
- Have a conversation--Talk with someone who speaks a different language

Need more travel ideas?

No Internet available but you want to use Google maps? While at home, just go to the place you want to visit on your cell phone. (i.e. Paris)

Then click on your picture at the top right of the Google Maps page. Go down the list to "Offline Maps" and download a map of Paris. Once it is downloaded, you can use it without an Internet connection.
