https://www.kidtopia.info/science_projects.html

Are your students planning ahead for a science fair project? Check out our resources on Infotopia.info for grades 5 and up. For students in grades K-4, try our Kidtopia resources.

First, follow the steps of the scientific method to create an award winning and successful project.

1. Ask a question you want to answer.
2. Do background research on the topic.
3. Form a hypothesis.
4. Test your hypothesis by doing an experiment.
5. Analyze your data (results from your experiment.
6. Communicate your results to others.

ScienceBuddies.org has some great information about starting and completing a science fair project.

Sciencefairadventure.com also has some great ideas.

You will find over 25 resources on Infotopia and Kidtopia to help you get started!

Looking for ideas for your PK-8 classes?
https://www.education.com/

Education.com

Try **Education.com** for **Math, Language Arts, Science, Social Studies, and Foreign Language** resources. It includes worksheets, activities, games and more for these subjects.

You can also build a worksheet such as a word scramble, word search, crossword puzzle or Sudoku directly from this website.

There are even more resources on this website. In addition to worksheets, there are games, lesson plans, interactive worksheets, workbooks, activities, exercises, stories, songs, and much more!

You can also check out **Rolly Recommends**, which includes weekly recommendations, early childhood ideas, and monthly ideas (such as Women's History Month and others).

Reading Month includes free stories and information reading by grade level. Be sure to try it out.

Kidtopia
