Kidtopia

Check out our recommendations for learning about endangered animals!

https://www.kidtopia.info/endangered_animals.html

Learn about mammals here!

<https://www.kidtopia.info/mammals.html>

All about dinosaurs from Kidtopia!

<https://www.kidtopia.info/dinosaurs.html>

Kidtopia is designed for children from grades PK to 3 or 4. Let us know if you have any recommendations for topics to research!

COOL TEXT!

Are you in need of some really cool text for a presentation, a web page/blog or a document? We just discovered

<https://maketext.io>

You just type in your text and it gives you a selection of at least 36 different “cool texts” to choose from. Once you select a text, you can change the font, the palette of colors, the shadow, the background, and more. (You can easily choose a transparent background.) Then just download the image as a PNG and you are ready to transfer it to a document, web page, presentation, etc. Here are a few that we created. (And best of all, it’s free!)

Dr. Michael Bell and Carole Bell

Have you visited NASA’s Visible Earth? It’s a catalog of NASA images and animations of our home planet.

<https://visibleearth.nasa.gov/>

There are many image collections available for viewing, include the earth as a blue marble, the earth at night, and the land on earth under the categories Terra and Agriculture.

These are wonderful images for students to use in presentations on the weather, natural disasters, landforms and other earth-related topics.
