

Inventors and Inventions

For a quick look at famous inventors and inventions, check out Enchanted Learning. This page links to inventions and inventors starting with the letter A. On the right, select from letters B-Z.

- **Inventors and Inventions by Letter**

<https://www.enchantedlearning.com/inventors/>

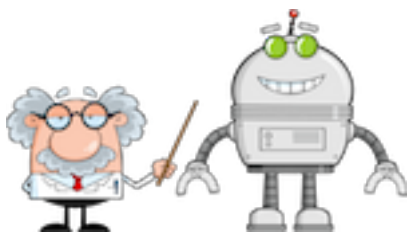

You can also check out inventors by location, category, and date at columns on the right side of the page. Look for the following topics:

- **Inventors and Inventions by Category**
- **Inventors and Inventions by Location**
- **Inventors and Inventions by Date**

For more resources on inventors and inventions, check out Kidtopia for grades K-4 and Infotopia for grades 5 and above.

Trivia Question:

Q: Who invented the first industrial robot?

Hint: You can browse the websites listed above or you can do a search with the terms "invention of first industrial robot" and get the answer quickly on any of our search engines.

A: The first stationary industrial robot was the programmable Unimate and was invented by George Devol in 1954. Read more about it!

Welcome!

Welcome to the students and teachers from **Newport News, Virginia!** We are happy you are using Infotopia.info, VirtualLRC.com, Infotrek.info, Kidtopia.info and Kidtopiafacts.com for your research needs!

<https://virtualnerd.com/>

Virtual Nerd was originally designed as supplemental learning resource for **mathematics for middle and high school students**. Savvas Learning acquired VirtualNerd in 2013 and made it available for free for students and teachers around the world.

These are videos that students can watch from home to brush up on their skills or to prepare for exams on numerous topics. In each short video, a teacher walks students through the topic using a whiteboard. Just as an example, "Operations with Whole Numbers" includes 32 separate videos for grades 6-8.

Courses available include:

- Grades 6-8 Math (413 videos)
- Pre-Algebra (709 videos)
- Algebra 1 (724 videos)
- Algebra 2 (548 videos)
- Geometry (271 videos)
- Common Core Math (1400 videos for Grades 1-12)
- Texas Standards (1687 videos)
- SAT Math Topics (351 videos)
- ACT Math Topics (403 videos)

Do your students insist on using **Google** for their research? Have them do a keyword search on Google and then the same keyword search on a custom Google search engine such as www.infotopia.info (grades 5 and up) or www.kidtopia.info (for grades K-4).

Which provides the most authoritative, reliable results on the first or second page of results? Try an especially controversial topic and see what happens.

8 Amazing AI Websites!
